6. Wire Counter Display Racks.

Mr. DEALER:

Recommend NITRAGIN inoculation for all Legume seeds planted.

Many farmers believe once a field has been planted with inoculated Legume seeds that any future similar Legumes planted on the same field need not be inoculated. Field tests have shown that better crops are harvested when Legume seeds are inoculated even when planted on fields where inoculated seeds of the same Legume crops had grown the previous year. Scientists have proved that due to unfavorable soil conditions many Legume bacteria do not survive from year to year, therefore are not present in the soil in sufficient numbers to give the best results.

Encourage the farmer to inoculate all Legume seeds whether planted on old or new fields. It costs but a few cents per acre.

DEALER EXCHANGE POLICY

You purchase NITRAGIN outright from your jobber at regular terms. NITRAGIN is not consigned.

As a service because of the expiration date on all NITRAGIN labels, all NITRAGIN left over should be returned immediately at end of season to your jobber for credit.

ORDER NITRAGIN IN CARTON LOTS

For convenience in handling and shipping, please order NITRAGIN in full carton lots, if possible.

See price list other side for number of units packed in each carton.

Reduce your left-over stock at end of year by ordering smaller lots and ordering more often during season.

CORNELI'S TRIPLE KILL
KILLS INSECTS
 BY CONTACT
 BY STOMACH POISONING
 BY PARALYZING LEGS & WINGS
GARDEN SPRAY

THIS IS THE ONE
 If you could sell or use only one insecticide for Vegetables, Flowers and Fruits, This IS The One.

Highly concentrated, this new, safe, super-powerful liquid spray presents the wonder working properties of Rotenone and Derris in a new patented form; Activated, Stabilized, Scientifically Compounded, and far more Effective.

In addition to Killing insects by outside contact and as a stomach poison it also Permanently Paralyzes the legs and wings of some insects not hitherto effectively controlled by spraying. Insects so paralyzed that cannot fly or walk do not recover and the U. S. Department of Agriculture considers them dead. (See U. S. Treasury Specification #311). Actual tests have shown effective control of the following stubborn insects:

Red Spider	Mealy Bugs	Leaf Hoppers
White Fly	Leaf Roller	Aphids (Plant Lice)
Green Fly	Rose Chafer	Colo. Potato Beetle
Mexican Bean Beetle	Cucumber Beetles	Cabbage Worms
Japanese Beetle	Harlequin Cabbage Bug	Thrip
Spanish Fly (Blister Beetle)	Codling Moth	Flea Beetle
Tomato Worms		and certain others.

Dilutions vary from 1 part in 200 to 1 part in 1,000.

TripleKill is harmless to persons or animals if spilled on skin and may be sprayed on edible fruits and vegetables without leaving a dangerous poison residue.

No soap or spreader necessary; mixes readily with either hard or soft water.
